Scope of Work

Neighborhood Saturday Cleanups: Yard debris material from the Neighborhood Cleanup program is collected and delivered on designated Saturdays by the City’s contracted collection service provider Waste Connections. Neighborhoods usually schedule their Saturday cleanup events between March and November. Yard debris may be collected in a rear-load compacting truck, or in a 40-yard drop box with minimal compaction. Potential receiving site(s)/vendor(s) are expected to have an adequate space for commercial drop box trucks to dump yard debris with no overhead obstacles and limited interaction with public traffic. Service providers will have the right to reject loads that are contaminated with garbage or unacceptable material and shall provide documentation to the City of such occurrence.

Spring Cleanup and Fall Leaves Coupons:

- Spring cleanup coupons are distributed to City residents in their April garbage bills. Each household in the City may redeem two coupons for yard debris disposal under this program.
- Fall leaves coupons are distributed through the annual recycling newsletter, utility bills, and available for download from websites. There is no limit on the number of leaves coupons each household may redeem.

Yard debris and leaves collected under these coupon programs is delivered to service providers by residents. Residents select the sites to drop off material. Potential service providers need to have the capability to manage drop off sites to safely queue vehicles, and create systems to collect coupons, and accurately measure the quantity of yard debris/leaves deposited.

Service providers must track the volume or weights of material collected under these coupon programs on a daily basis and submit weekly or monthly invoices with redeemed coupons to the City for payment. A consistent methodology must be implemented for estimating the volume or weight of materials delivered in resident’s personal vehicles, as well as by larger roll-off trucks and drop boxes. This may require scales or some other mutually agreed upon means to consistently measure the volume or weight of debris by onsite personnel. Potential service providers must also implement procedures to follow and enforce the City’s policies regarding coupon redemption.

The City reserves the right to request or undertake an audit, at any time, of the service provider’s practices to assure consistent and accurate accounting of volumes received under either the spring yard debris or fall leaves coupon programs or other noted contract elements.

Storm Debris: After a severe weather event, the City may opt to provide residents with assistance in cleaning up event related vegetative debris. Alternatives for managing the

collection of this debris may include establishing temporary collection site(s) or providing vouchers with limited duration effective dates and collection sites. The amount of debris collected under these circumstances cannot be predicted.
